1. WELCOME TO THE SCHEME

1.1 Overview

The Scheme is designed to afford investors an opportunity to participate, through the Scheme, in the ownership and racing of quality thoroughbred horses trained by reputable and well-known trainers. By holding Units in the Scheme, Investors may spread both the costs and inherent risks associated with owning and racing thoroughbred racehorses.

1.2 Structure of Scheme

The Scheme is structured as an unlisted Unit trust. The Responsible Entity accepts money from different Investors which is pooled and collectively used to acquire the Horses. Scheme levies are used to meet the costs of operating the Scheme.

The beneficial interest in the Scheme is divided into Units. Each Unit confers on the holder of that Unit (**Unit Holder**) an undivided interest in the assets of the Scheme in the same proportion as that Unit number bears to the total number of Units on issue. However, a Unit does not confer on the Unit Holder any entitlement to a specific asset of the Scheme or to any part of the assets.

The Scheme is established under a Constitution.

The Unit Holders will:

- (1) benefit from racing the Horses, including a proportion of any prize money earned from racing the Horses and any sale proceeds which may be realised if or when a Horse is sold; and
- (2) be responsible for the Periodic Class Dues and Capital Contributions set out Section 8 (*Fees and other costs*) of this PDS and used in:
 - (i) acquiring, maintaining, training, and racing the Horses; and
 - (ii) operating the Scheme.

Applicants for Units must be eligible to be an owner under the Australian Rules of Racing and if a Unit Holder becomes ineligible to be an owner that Unit Holder must within 7 days notify the Manager and make arrangements to transfer or surrender the Unit(s) held.

1.3 Offer and acquisition process

This PDS explains the benefits and risks of acquiring Units and provides information to Investors about special features of investing in the Units, the price range in which the Horses will likely be acquired, and the fees and costs associated with the Scheme.

It is proposed that the Responsible Entity will seek investment of at least the **Minimum Subscription Amount** for the Scheme of \$500,000 up to a **Maximum Subscription Amount** for the Scheme of \$2,000,000.

The **Application Price** payable by each Investor when applying for a Unit or Units is \$200 per Unit.

The Application Price per Unit is payable by each Investor when applying for a Unit or Units which will be applied by the Responsible Entity towards the acquisition price of the initial Horses to be acquired for the Scheme.

If the **Minimum Subscription Amount** for the Scheme is reached, Investors will then be issued with Units and the Responsible Entity will authorise the Manager to proceed to acquire suitable horses for the Scheme. The subscription money will exceed the amount required by the Responsible Entity to acquire the Horses.

If the **Maximum Subscription Amount** for the Scheme is achieved the Manager will use best

endeavours to acquire between 6 to 10 suitable horses for the Scheme, being a combination of yearlings and tried horses. If only the **Minimum Subscription Amount** is achieved, then this may reduce proportionately the number of suitable horses the Manager is able to acquire for the Scheme.

If the **Minimum Subscription Amount** IS NOT reached on or before the Offer closing date, then the Units will not issue, and the Applicants will receive a full refund of the application moneys they have paid.

Until the **Minimum Subscription Amount** is met, and the Units issued, the application moneys received will be held in a trust account designated for application moneys. Such moneys will not be invested in an interest-bearing account and no interest will be paid to the Applicants by the Responsible Entity.

Applications will be limited to a maximum of 50 Units, unless the Responsible Entity at its discretion consents to the applicant acquiring and holding a higher number of Units.

Unit Holders will be required to make payments of Periodic Class Dues and Capital Contributions in order to fund the operation of the Scheme. Please see Section 8 (*Fees and other costs*) of this PDS for information about the Periodic Class Dues, Special Levies and Capital Contributions that a Unit Holder will be required to pay in connection with the ownership of Units.

1.4 The Responsible Entity

The Responsible Entity is SIRE CUSTODIANS LTD (ABN 45 005 088 371), which holds an Australian Financial Services Licence: AFSL 223671.

The Manager has relevant expertise in horse racing and is regarded as able to procure the services of various persons, including bloodstock consultants, veterinarians, and horse trainers, and to monitor the provision of services to the Scheme.

1.6 Prize money

The Horses will be chosen by the Manager. However, neither the Manager nor the Responsible Entity makes any representation or gives any warranty that the Horses will win any races or prize money or have any significant residual value.

1.7 Registered with ASIC

The Scheme is a registered managed investment scheme. The Constitution and the Compliance Plan that detail how the Scheme will be operated and monitored, have been lodged with ASIC.

This PDS was prepared by the Responsible Entity. It has not (and is not required to be) lodged with ASIC. The Responsible Entity will notify ASIC that this PDS is in-use in accordance with the

requirements of the Corporations Act 2001. ASIC has no responsibility for the contents of this PDS. This PDS is available electronically via the Manager's website: www.trl.net .

3. HOW THE SCHEME WORKS

3.1 Becoming a Unit Holder in the Scheme

Applications to become a Unit Holder are made online or via the support centre. Investors should go to www.trl.net .

If you decide to invest, read the PDS and fill in the application form. You will be required to confirm your identity by entering specific information and nominate a bank account for the payment of your proportion of distributions of any prize money and proceeds.

Applicants should note that the Responsible Entity has the right to accept or reject any application for Units, whether in whole or in part, in its absolute discretion and has no obligation to give any reason if it rejects an application.

3.2 What you receive when you make an investment

The beneficial interest in the Scheme is divided into Units.

The Responsible Entity will use the money raised by the issuing of Units to acquire suitable horses for the Scheme.

The Manager will then appoint a trainer for each of the Horses and procure the services of other third parties (as required) to care for, train and race them to best advantage for the benefit of the Unit Holders.

3.3 Trainers

The Manager will appoint a trainer for each of the Horses with consideration of:

- (a) the trainer's track record evidencing success at training thoroughbred horses;
- (b) demonstrating the ability to provide a quality ownership experience; and
- (c) the Unit Holders' preferred trainer (to be determined by a vote of Unit Holders).

3.4 Insurance

Ordinarily, the Horses WILL NOT be insured for mortality or other insurable risks, EXCEPT in the following circumstances:

- (a) each Horse acquired for the Scheme as a new/replacement Horse will be insured from the fall of the hammer until the Horse is formally acquired by the Scheme and paid for; and
- (b) any Horse that is considered by the Manager to have a commercial value significantly above its initial purchase price [for example a Group winning Colt with residual value as a stallion] may be insured by the Manager (with the approval of the Responsible Entity) and the premium attaching to the insurance cover will be a Scheme operating expense payable by the Unit Holders by the issuing of a Special Levy.

3.5 The Racing League

"The Racing League" is a sporting concept designed to increase Unit Holder participation in the operation of the Scheme, and by so doing enhance the overall ownership experience for Unit Holders. The Manager intends to offer Unit Holders the opportunity to participate in deciding upon a Horse to be traded each year, and for the Scheme to participate with the other Schemes also managed by the Manager in a points-based competition. More details in relation to "The Racing League" will be provided by the Manager in due course.

This concept is intended to compliment, rather than exclude or replace, any of the terms of the Constitution, or any of the information provided in this PDS as to how the Scheme will operate.

The concept of trading a Horse each year is consistent with the Scheme's objective to maintain

a consistent number of competitive Horses from year-to-year for the life of the Scheme.

3.6 How to keep track of your investment

The Manager will issue regular digital progress reports on each of the Horses and make additional information available via its website: www.trl.net .

3.7 Code of conduct

The Responsible Entity and the Manager want to make ownership a pleasurable experience for all Unit Holders. All Unit Holders are governed by the Australian Rules of Racing and are expected to act in the best interest of racing, the Scheme Horses and all parties associated with the Scheme. A copy of the Rules of Racing can be obtained from the Racing Australia Limited website: www.racingaustralia.com.

6. WHAT ARE THE RISKS OF INVESTING IN THE SCHEME?

All investments carry risk. Different strategies may carry different levels of risk, depending on the assets that make up the strategy. The likely investment return and the risk of losing money are different for every investment. Assets with the highest long-term returns may also carry the highest level of short-term risk.

The risks outlined in Section 6.1 below have been identified by the Responsible Entity, but they are not intended to be a complete list and do not take account of your personal circumstances. So that your personal circumstances can be considered, it is recommended that you:

- (a) read the whole of this PDS to fully appreciate these matters;
- (b) think about your tolerance to risk and how the potential investment risks of this Scheme may affect you; and
- (c) seek your own legal, financial and tax advice before deciding to invest.

Investment in thoroughbred Horses is highly speculative.

6.1 Scheme specific risks

- (1) **(Dependence on the Manager)** The Responsible Entity has engaged the Manager to manage the day-to-day operation of the Scheme. The Manager is contractually obliged to continue acting as the Manager and if it fails to do so, then the Responsible Entity has the right to appoint an alternate third-party manager. There are risks attached to the Responsible Entity's dependence on the Manager, including:
 - (a) reliance on the skill and expertise of the Manager to acquire, manage, maintain, and market the Horses, as well as the manner in which these functions are carried out;
 - (b) the way in which the Manager selects the Horses and then manages them for the Unit Holders; and
 - (c) changes in the personnel of the Manager which may reduce its skill level in managing the Horses.
- (2) **(Dependence on the third-party service providers)** The Manager will engage the services of various third-party service providers to provide services in relation to the operation of the Scheme, including various bloodstock consultants, veterinarians, and licensed trainers. There are risks attached to the Manager's and Responsible Entity's dependence on those third parties, including (without limitation) the risk that a third party fails to effectively provide the services and support that it was contracted to provide.
- (3) **(Risks associated with Horses)** Risks specifically associated with the Horses of the Scheme include that:
 - (a) there is no guarantee or assurance:
 - (i) as to when a Horse will commence racing;
 - (ii) that a Horse will have:
 - o the ability to win any races or prize money; or
 - o any significant residual value either at any time during or at the end of its racing career;
 - (b) a Horse being an entire may require gelding in an attempt to enhance racing performance, as most colts require gelding;

- (c) the value of each of the Horses will likely fluctuate while being owned by the Scheme and will be affected by market forces, its race performances, and its suitability for breeding at the end of its racing career; and
 - (d) a Horse may die or its value be diminished by market forces or the materialization of an inherent risk, including (without limitation) accident, illness, infertility or sub-fertility, injury, or natural cause, or its failure to compete in or win any races.
- (4) **(Dependence on payment of costs)** The cash flow required for the effective operation of the Scheme is dependent upon Unit Holders paying their Periodic Class dues and Special Class Levies when required. If a substantial number of Unit Holders fail to pay their Periodic Class dues or Special Class Levies, the Scheme may have inadequate funds to function and particularly, may be unable to pay the costs associated with the maintenance of the Horses. The Constitution empowers the Responsible Entity to forfeit and sell the Unit(s) of any Unit Holder who fails to pay amounts due. Alternatively, the Scheme can be wound up if outstanding levies are substantial.
- (5) **(Forfeiture)** You will be in default if you fail to pay an amount when due and payable. If you are in default, then the Responsible Entity may:
- (a) accelerate any remaining payments which are payable by you;
 - (b) impose late fees on you;
 - (c) charge interest on any outstanding amount owing to the Responsible Entity which accrues daily; or
 - (d) require the Manager to effect the transfer, sale or other disposal (including forfeiture) of your Units. If a sale is achieved, then the costs of sale and of administering the sale process may be offset against the sale proceeds, with the balance payable to you or otherwise as required by the Constitution.

The Responsible Entity may bring an action against a Unit Holder to collect all amounts due, including interest, late charges, and costs. In the event Units are owned by more than one person or entity, such holders are jointly and severally liable for all amounts due and payable in relation to those Units. The Responsible Entity is not obligated to sell the Units within any specific period of time and in any event may be unable to do so. The liability for ongoing costs associated with the ownership of Units may not be avoided by abandoning those Units.

- (6) **(Industry conditions)** Changes in the thoroughbred industry or market conditions could have a positive or negative impact on your investment during the time that you are a Unit Holder, including:
- (a) variability in the level of demand for related thoroughbred horses and thoroughbred horses of equivalent calibre both at public auction and by private treaty;
 - (b) variability in the level of supply of related thoroughbred horses and thoroughbred horses of equivalent calibre both at public auction and by private treaty;
 - (c) any other change in the current conditions affecting investment in the thoroughbred horse racing and horse breeding industries, including level of prize money and taxation benefits available to thoroughbred breeders; and
 - (d) It is also possible that restrictions in the racing of thoroughbred horses or an outright ban on horse racing could occur in any or all the Australian states in which a Horse may be raced. If that occurs, it is likely that the market for thoroughbred racehorses will cease, in which case there will be no market for the disposal of the Horse. If that occurs, you may lose all your investment, there will be no further prize money and there may be a period of time when you are still required to pay the costs associated with the maintenance and welfare of the Horse.

- (7) (**Illiquid investment**) Your Units in the Scheme will be illiquid, and they are not traded on any market. Your investment may only end when the Horses die or are sold.
- (8) (**Asset nature**) The lack of diversity in the nature of the assets of the Scheme may not suit your investment needs.
- (9) (**Technology**) The ownership experience has a high digital component. There is a risk that the technology platform used to deliver unique personal reports from trainers, fails.

6.2 General risks

- (1) (**Volatility**) Generally, the higher the potential return for the investment, the higher the risk, and the greater the chance of fluctuation in returns (including the possibility of losses) that may occur over time (especially over shorter periods of time).
- (2) (**Inflation**) Your investment in the Scheme may not keep pace with inflation.
- (3) (**Economic downturn**) The Scheme will be exposed to the direct and indirect consequences of changes in the state of the economy generally, including inflation risks, interest rates, market and investment sentiment and other changes in the economic factors that affect a particular industry or market sector, as well as other factors over which the Responsible Entity has no control.
- (4) (**Force majeure**) A force majeure is an unexpected event such as war, a criminal act or a natural disaster results in one or more parties to a contract being unable to fulfil their obligations. A force majeure event could be significant enough to impact the business of the Scheme and cause Unit Holders to suffer higher than anticipated financial loss.
- (5) (**Legal and regulatory**) Changes in laws or their interpretation, including taxation and corporate regulatory laws, practice and policy could have a negative impact on your investment in the Scheme and changes in State or Federal Government policy may occur during the time that you are a Unit Holder.
- (6) (**Investment objective**) Investment objective risk is the risk that your choice of investments will not meet your objectives. One measure of an investment's risk is how much the returns vary from period to period. The greater the variance in returns, the more likely returns will differ from those expected over a given time period.

7. COMMONLY ASKED QUESTIONS

This section contains a selection of commonly asked questions about the Scheme. If you have any other questions, please contact the Manager by email at help@trl.net.

Question	Answer
Trophies/Race Day memorabilia	All trophies won by a Horse may be auctioned/raffled amongst the Unit Holders, with the proceeds to be donated to a chosen Scheme charity.
Horse Welfare	The Manager aims to place the wellbeing of the Horses as the first priority and as such will take all measures to ensure their wellbeing.
Trainer Updates	As a Unit Holder in the Scheme you will receive via the Manager at least the same level of progress reporting from the trainer (via the Manager) as is normally provided by the trainer directly to the owners of other horses. Trainers are expected to provide video, voice, and photo updates on a regular basis.
Naming Process	All Unit Holders will have the opportunity to make a nomination on the naming of each "Unnamed" Horse for the Scheme. A democratic voting system will then decide on the winning name. Only Unit Holders can vote on the final name for a Horse.
Enclosure Ticketing	Current race club rules provide for an allocation of owner's enclosure tickets only on race day. The Manager will retain up to 2 tickets and ballot the remaining tickets amongst the Unit Holders who wish to attend the race day.
What will happen if a Unit Holder does not pay the Periodic Class Dues, Special Class Levies and Capital Contributions when due?	If a Unit Holder's payment defaults in relation to the payment to the Responsible Entity of any amount on account of Periodic Class Dues, Special Class Levies or Capital Contributions, the Unit Holder will have a full calendar month to pay the amount owing. If the amount is then still not paid, the Responsible Entity has the right to charge interest, to sell the Unit Holder's Unit(s), and to deduct outstanding amounts before any surplus (if any) is paid out.
Wind Up	The Manager will be responsible for managing the Horses. At the forefront of the Manager's objectives will be the welfare of the Horses and the best interests of the Unit Holders. If the Manager determines that racing, or continuing to race, a specific Horse is not in the interests of the Horse itself or Unit Holders, then the Horse will either be sold, or if it is considered to be of no significant commercial value, retired.
Manager	The Manager will work closely with the trainers of the Horses to ensure that the Horses are exposed to the best possible racing programs, jockeys, and other important career management decisions. The Manager, in conjunction with the trainer, is responsible for all decision-making in relation to each of the Horses.

Trainer contact	<p>Unit Holders are PROHIBITED from contacting the trainers directly.</p> <p>Questions regarding the Horses should be directed to the Manager at help@trl.net or using the contact-functionality on the website.</p>
Code of conduct	<p>The Manager wants to make ownership a pleasurable experience for all Unit Holders. As a Unit Holder in the Scheme you must comply with the Rules of Racing and act in the best interests of racing and the Scheme at all times.</p>
Colours	<p>All Horses will race in the Scheme's colours that will be designed and voted on by Unit Holders.</p>
Transparency	<p>The Scheme wishes to earn a reputation for transparency and trust.</p> <p>All Horses acquired must adhere to the Manager's "Horse Acquisition Policy". No mark-ups of the purchase price will be allowed. Further, any agent or trainer who is part of the decision to acquire a Horse for the Scheme must warrant to the Manager that the agent or trainer has not received any incentive from the vendor to purchase the Horse and that no other conflicts of interest exist.</p> <p>When a Horse is retired from racing, the Manager will assess if it has a significant commercial value. If it is considered that that the Horse does have a significant commercial value, then it must be sold.</p> <p>Special Class Levies will indicate a breakdown of relevant fees and cost so that each Unit Holder is aware of how money is being applied.</p>

8. FEES AND OTHER COSTS

8.1 Consumer Advisory Warning

The Corporations Act requires the Responsible Entity to include the following standard consumer advisory warning in this PDS. The information in the consumer advisory warning is standard across Product Disclosure Statements and is not specific to information on fees and other costs associated with an investment in the Scheme.

DID YOU KNOW?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your account balance rather than 1% could reduce your final return by up to 20% over a 30 year period (for example reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable. Ask the fund or your financial adviser.

TO FIND OUT MORE

If you would like to find out more, or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneysmart.gov.au) has a managed investment fee calculator to help you check out different fee options.

8.2 Cost of the Units

As above, it is proposed that:

- (a) the **Minimum Subscription Amount** is \$500,000 and the **Maximum Subscription Amount** is \$2,000,000; and
- (b) the Application Price payable by each Investor when applying for a Unit or Units is \$200 per Unit.

The Application Price per Unit is payable by each Investor when applying for a Unit or Units which will be applied by the Responsible Entity towards the acquisition price of the initial Horses to be acquired for the Scheme.

If the **Maximum Subscription Amount** is achieved the Manager will use best endeavours to acquire between 6 to 10 suitable horses for the Scheme, being a combination of yearlings and tried horses. If only the **Minimum Subscription Amount** is achieved, then this may reduce the number of suitable horses the Manager is able to acquire for the Scheme.

8.3 Fees and other costs

This document shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the Scheme as a whole.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

8.4 Example of fees and costs

The below tables give an example of how the fees and costs of the Units can affect your investment over a one-year period. You should use these tables to compare this product with other managed investment products.

EXAMPLE			
If you acquire 1 Unit in the Scheme for \$200, you will be required to contribute the following during each year	Ongoing monthly fees		Total of ongoing monthly fees/capital contributions payable annually
	Per Unit Holder	Per Unit	
Periodic Class Dues (Scheme levy) on account of scheme operating and compliance costs, including management fees payable to the Responsible Entity and the Manager, and Horse related expenses	\$20	-	\$240
PLUS annual capital contribution	-	-	\$60
EQUALS ANNUAL COST OF 1 UNIT			\$300

EXAMPLE			
If you acquire multiple Units in the Scheme for \$200 per Unit, you will be required to contribute the following during each year for each additional Unit	Ongoing monthly fees		Total of ongoing monthly fees/capital contributions payable annually
	Per Unit Holder	Per Unit	
Periodic Class Dues (Scheme levy) on account of scheme operating and compliance costs, including management fees payable to the Responsible Entity and the Manager, and Horse related expenses	-	\$5	\$60
PLUS annual capital contribution	-	-	\$60
EQUALS ANNUAL COST OF EACH ADDITIONAL UNIT			\$120

8.5 Additional explanation of fees and costs

Each Unit Holder will be liable to make the following payments to the Responsible Entity:

➤ Periodic Class Dues

- a fee of \$20 if 1 Unit only is held, or for the first Unit held in the case of Unit Holders who hold multiple Units; PLUS
- a fee of \$5 for each additional Unit held;

on account of the Scheme's operating expenses, including management fees payable to the Responsible Entity and the Manager, and compliance costs.

➤ Capital Contributions

- a capital contribution of \$60 for each Unit held as a capital contribution to be used by the Responsible Entity and the Manager to acquire new/replacement Horses for the Scheme.

➤ Special Class Levies

- \$2.50 per Unit per Horse upon retirement if it has no significant commercial value

achievable upon sale or if the net sale proceeds are insufficient to cover the cost of retraining to facilitate rehoming.

- to cover the premiums in relation to any insurance procured in the circumstances contemplated by Section 3.4 of this PDS.
- to cover the cost of non-routine veterinary treatments and surgery.

The Unit Holder contributions paid as Periodic Class Dues will comprise Scheme Property from the time the Units are issued and will be used to pay:

- the **Establishment Fee** payable to the Responsible Entity for establishing the Scheme; and
- the **Ongoing Fee** payable to the Responsible Entity annually for acting as the responsible entity of the Scheme; and
- the unexpended surplus of the Periodic Class Dues after payment by the Responsible Entity of all of the Scheme's operating and compliance costs payable by the Responsible Entity from the capital of the Scheme contributed as Periodic Class Dues will be made available to the Manager as its remuneration for performing the Manager's duties, including providing the enhanced "The Racing League" ownership experience. This amount will vary depending upon a range of factors, including the number of Units on issue and the number of unique Unit Holders, and the amount of Scheme expenses paid by the Responsible Entity from the capital of the Scheme contributed as Periodic Class Dues. Furthermore, the entitlement of the Manager to receive this amount will be subject to the power of the Responsible Entity to retain in the Scheme's trust account an amount equivalent to its reasonable estimate of budgeted operating expenses for the Scheme for a period of 3 months in advance.

Multiple Units

Examples of the financial payments required to be made by Unit holders (excluding the Application Price), depending upon the number of Units acquired, is as follows:

Number of Units	Ongoing monthly fees		Ongoing annual capital contributions		Total of Ongoing monthly fees and capital contributions payable annually
	Total payable monthly	Total of monthly fees payable annually	Per Unit	Total of capital contributions payable annually	
1 Unit	\$20	\$240	\$60	\$60	\$300
5 Units	\$40	\$480	\$60	\$300	\$780
10 Units	\$65	\$780	\$60	\$600	\$1,380
15 Units	\$90	\$1,080	\$60	\$900	\$1,980
20 Units	\$115	\$1,380	\$60	\$1,200	\$2,580

FEES PAYABLE TO THE RESPONSIBLE ENTITY [clause 25 of the Constitution]

The Responsible Entity is entitled to be paid out of the Scheme Assets:

- a one-off fee of up to \$10,000 as an establishment fee (**Establishment Fee**); and
- a fee per annum of up to \$25,000 as an ongoing fee (**Ongoing Fee**);

in relation to the proper performance of the Responsible Entity's duties in respect of the Scheme.

The entitlement to the Establishment Fee arises on the issue of the first Units and the entitlement to the Ongoing Fees commences on the date the Scheme is established and ends on the date of final distribution on winding up of the Scheme.

The Responsible Entity is entitled to pay its fees from the income and capital of the Scheme.

The Responsible Entity may:

- (a) charge additional fees for additional services provided to the Scheme; and
- (b) retain the services of external service providers to provide services to the Scheme, the cost of which will be treated as a Scheme operating expense payable from the income and capital of the Scheme.

Maximums and waivers

The Responsible Entity may waive any of its fees and costs in whole or in part.

Fee changes

The Responsible Entity may cease any waiver of fees to which it is entitled. The Responsible Entity may also increase its fees within the maximum limits provided in the Constitution.

9. TAXATION

The racing activities of the Scheme are not considered to be a “business” for income tax purposes, thus the annual income distributions of the Scheme will not be assessable income.

Acquiring, holding, and disposing of Units in the Scheme may have important taxation and social security implications for investors. The following is only a very general summary of the current taxation legislation. Tax and social security requirements are complex, and you should obtain professional advice that is relevant to your own circumstances.

Income tax

It is considered that the Scheme will not be conducting and income tax “business”, nor a GST “enterprise”. All income will be distributed to Unit Holders in proportion to their Unit holding. If you are an investor who is an Australian resident, you will not need to include in your taxable income for the financial year any income distributed to you.

Capital Gains Tax

Capital gains realised by Unit Holders on the disposal of their Units may form part of their assessable income. Where Units have been held for more than 12 months, in calculating the assessable capital gain, the Unit Holder will be entitled to a capital gains (“CGT”) discount of 50% if they are individuals or 33.3% if they are a complying superannuation fund. If the Units have been held for less than 12 months, the discount is not available.

Capital losses realised by Unit Holders on the sale of their Units are calculated without applying the CGT discount. Capital losses are not allowed as a deduction against assessable income but may be offset against current year capital gains or may generally be carried forward to be offset against capital gains of future years. In the case of capital gains that are eligible for the CGT discount, capital losses must be offset against the nominal gain before applying the CGT discount.

The Responsible Entity is not an expert in taxation and Unit Holders are advised to consult their professional advisers as to the income tax consequences of investing in the Scheme and in relation any changes in the taxation law and practice which may occur subsequent to the date of this PDS.

10. ADDITIONAL INFORMATION

10.2 Constitution of the Scheme

The Scheme is established by the Constitution, as amended from time to time. The provisions of the Constitution are binding on each Unit Holder and persons claiming through them, as if the Unit Holder or person were a party to that Constitution.

The Constitution covers a number of additional matters, including:

- (a) the nature of the Units which are issued, application procedure and process for issuing Units;
- (b) the rights of Unit Holders to receive Scheme income;
- (c) Unit Holder meetings (a resolution may bind a Unit Holder, regardless of how or whether the Unit Holder voted);
- (d) the circumstances in which the Responsible Entity is and is not liable to the Unit Holders;
- (e) the Responsible Entity's rights, powers and entitlement to fees and expenses;
- (f) the Responsible Entity's right of indemnification out of the assets of the Scheme for all costs incurred by it in relation to the operation of the Scheme (subject to the proper performance of its duties);
- (g) the circumstances in which the Responsible Entity can terminate the Scheme; and
- (h) when the Responsible Entity can retire.

The Responsible Entity can amend the Constitution from time to time, subject to the provisions of the Constitution and the Corporations Act, including if it reasonably considers that the amendments will not adversely affect Unit Holders' rights. Otherwise, it must obtain the approval of the required number of Unit Holders at a meeting of Unit Holders (a resolution may bind you, regardless of how or whether you vote).

10.2 Compliance Plan

The Responsible Entity has compiled a Compliance Plan for the Scheme and has lodged a copy of that document with ASIC. The Compliance Plan sets out the compliance procedures that the Responsible Entity will follow to ensure that it is complying with the Corporations Act and the Constitution. Its compliance with the Compliance Plan is independently audited each year, as required by the Corporations Act and the auditor's report is lodged with ASIC.

10.3 Material contracts

- (a) Management agreement

The Responsible Entity has entered into a Management Agreement with the Manager, under which the Manager agrees to carry out a range of duties including (without limitation):

- (i) to select and acquire suitable horses for the Scheme; and
- (ii) to manage the day-to-day operation of the Scheme, including each of the Scheme Horses, on behalf of the Responsible Entity.

The Management Agreement may be terminated by either party with the approval of the Unit Holders (evidenced by an Extraordinary Resolution).

- (b) Other material agreements

The Manager will enter into a Training Agreement with the trainer of each Horse.

10.4 Keeping you informed

The Responsible Entity will keep you up-to-date regarding your investment. For example, you will receive or have access to see online:

- (a) a confirmation notice after the Units which you have applied for are issued;
- (b) a distribution statement (if and when distributions are paid); and
- (c) the Annual Financial Report for the Scheme. (You may elect not to receive these if you wish.)

Digital Communication is our default means of sending you information. However, we will send you information by post if you contact us and request this method of delivery.

10.5 Continuous disclosure

As a disclosing entity, the Scheme is subject to certain reporting and disclosure obligations under the Corporations Act. The Responsible Entity will meet our continuous disclosure obligations by publishing material information on the Manager's website www.trl.net in accordance with the requirements of ASIC policy. Copies of the documents lodged with ASIC in relation to the Scheme may be obtained from, or inspected at, an ASIC office. You have a right to obtain a copy of the following documents from us at no charge to you:

- (a) the latest Annual Financial Report lodged with ASIC;
- (b) any continuous disclosure notices given by the Scheme after lodgement of the Annual Financial Report (and before the date of this PDS).

10.6 Cooling off

If you are a "retail client" (as defined under the Corporations Act) investing directly in the Scheme, you have a 14-day cooling-off period to ensure the investment meets your needs. The cooling off period starts from the earlier of:

- (a) the day we give you a transaction confirmation issued by the Manager; or
- (b) five business days after you acquire the product.

If you exercise your cooling-off rights, we will return your money to you; however, the amount we return may be different from your original investment. The amount returned may be affected by the deduction of reasonable administration costs incurred by us or any other amount that may be deducted by us under the Corporations Act. Your cooling-off rights terminate immediately if:

- (a) you exercise any of your rights or powers of a Unit Holder in the Scheme; or
- (b) an event occurs and your rights or powers of a Unit Holder cease to exist.

10.7 Complaints

If you have any concerns or complaints, please contact the Manager at email: help@trl.net, or on Tel: 1300 771 913. The Manager will acknowledge receipt of your complaint and attempt to resolve it as soon as practicable.

However, to the extent that the Responsible Entity believes those matters may affect the value or performance of an underlying investment, they may be considered.

The Responsible Entity does not have a predetermined view as to what constitutes a labour standard or environmental, social, or ethical consideration, as these will be determined on a case- by-case basis.

10.12 Anti-money laundering laws

Responsible Entity may require further KYC information such as information concerning business activities, structure, and source of funds of Applicants and from time to time may require an Applicant to provide updated or additional information.

The Responsible Entity may refuse to accept an application or decline to issue Units to an Applicant until it has satisfactorily concluded a customer identification procedure in relation to the Applicant.

The Responsible Entity may delay or refuse any request or transaction, including by suspending the issue or redemption of Units if the Responsible Entity is concerned that the request or transaction may cause the Responsible Entity to contravene the AML/CTF Act. The Responsible Entity will incur no liability to the Applicant if it does so.

10.13 Payments to related parties

Both the Responsible Entity and the Manager may have existing relationships with various other parties with whom they wish to procure services in relation to the Scheme and the Scheme Horses.
